SUBMISSION OF REPLACEMENT OR AMENDED SEQUENCE LISTING

Dear Sir:

In response to the Notification to Comply with Requirements for Patent Application Containing Nucleotide and/or Amino Acids Sequence Disclosures dated June 30, 2006, a replacement or amended sequence listing is being submitted herewith. The sequence listing is in the form of both a paper copy and two computer readable copies on a computer diskette. The undersigned hereby verifies that the content of the paper copy and the two computer readable copies, as concurrently being submitted, are the same. No new matter is being added by way of the paper copy or computer-readable copy of this replacement or amended sequence listing.

Four new sequence identification numbers (SEQ ID NOs: 101-104) have been added to the sequence listing, which correspond to the four amino acid sequences set forth in Fig. 4C. The Notification indicates that a sequence identification number should be added for Fig. 4D; however "CTCF" in Figure 4D does NOT refer to an amino acid sequence. CTCF refers to a sequence-specific DNA binding protein.

Additionally, the "comments" portion of SEQ ID NOs: 59 and 84-100 of the sequence listing have been amended to correctly characterize the sequences.

In re Appln. of Bell et al.
